ABOUT US

ABOUT US

CHAMPION ROOF INSULATION (an ISO Certified Company) aim is to be the best in its field of waterproofing through the strongest commitment to quality and client/customer satisfaction.

We offer a wide variety of waterproofing & Insulation services. Our extensive experience in managing resources, process and adherence to quality, help our clients focus on core business strategies while reducing operating costs. CHAMPION ROOF INSULATION has earned an industry reputation of delivering high quality service and customer satisfaction. CHAMPION ROOF INSULATION offers a full array of services that support business strategies and facilitate improvement for compelling business needs.

Hoping that you will qualify our firm as a prospective bidder for the execution of Water Proofing & Insulation Systems, we look forward to serve you.

QUALITY POLICY

CHAMPION ROOF INSULATION believes that quality is the result of better processes and it strives to continually improve its own. Process meetings are conducted periodically with all functional heads to understand and identify improvement areas. Reports from the teams are analyzed to understand the improvement areas in terms of quality and productivity are discussed with the Quality development teams. Process improvement tools are developed, tested and deployed in the installation process.

Quality we believe quality starts with quality specifications that are installed by quality contractors. Our professional expertise combined with years of specialized roofing and waterproofing consulting will provide you with long term quality system.

QHSE PLAN / POLICY

QHSE Policy

CHAMPION ROOF INSULATION WORK - SOLE PROPRIETORSHIP L.L.C shall commit and ensure Quality of its services, Health & Safety of its Employees, Clients, Visitors and the community at large and protect the physical environment in which the **CHAMPION ROOF INSULATION WORK - SOLE PROPRIETORSHIP L.L.C's** associated business activities are carried out.

The Management and Staff of **CHAMPION ROOF INSULATION WORK - SOLE PROPRIETORSHIP L.L.C** shall:

- Ensure that our products and services meet the needs and expectations of our clients in terms of quality;
- Develop and implement an Integrated Management System conforming to ISO 9001:2015, ISO 14001:2015 & ISO 45001:2018;
- Ensure the availability of personal, financial and human resources necessary to mitigate the adverse impact of its operations on HSE;
- Undertake reviews to measure QHSE performance against identified objectives and targets and continually improve the system;
- Ensuring the safety and welfare of our staff and the protection of our assets;
- Comply with or exceed all relevant Quality, Environmental, Health & Safety legal laws, regulations and other requirements;
- Identify the hazards in the production facility, assess the risks and manage those risks in order to reduce adverse impact on HSE;
- Periodically review the suitability, adequacy and effectiveness of the (QHSE) management system;
- Make every effort to protect the environment and prevent pollution, minimize consumption of materials, promote reuse and recycling of wastes and adopt best practice on waste management;
- Strive to achieve continual improvement of the QHSE management system and related performance;
- Prevent accidents and cases of work-related ill-health;
- Provide appropriate training to employees where applicable;
- Ensure that the company's QHSE Policy is well communicated to all quarters concerned;
- Commitment to consultation & participation of workers

We, Champion Roof Insulation Work hereby extend our guarantee for a period of 25 years. Our guarantee irrevocably stands against any manufacturing defect for wrong application and the company undertake to repair free of cost any such defect occurring within the guarantee period subject to the following conditions.

1. Specifically excluded from this guarantee is any damage to the said roof caused by foundation settlement, fire, lightning, storms or other unusual phenomena of the elements. If the damage is by reason of any of the above mentioned, this guarantee shall become null and void for the balance of the guarantee period.
2. No activity that has potential to cause damage to the waterproofing system, such as the erection of railings, sign braces, equipment requiring fastening, drains, pipes etc. shall be carried out on the roof until and unless Champion Roof Insulation Work is first notified and given the opportunity to make the necessary recommendations with respect to such activities. Failure to do so shall render this guarantee null and void.

CONSULTANT RESPONSE:

Approved as noted- Subject to compliance with the following comments:

1. M/S Champion Roof insulation works' approval is limited Roof waterproofing works only.
2. Subject to full compliance and adherence with contract documents, project specs, SORs and ADM requirements.
3. The proposed subcontractor is acknowledged to use the same material approved in accordance with the U values calculations which is already approved in the Material Submittal no. MS-1902-CVL-014 Rev. 01, Combo Roof System
4. The Main contractor to segregate the scope related to the Division of works between M/S Champion Roof Insulation works and the other subcontractors related to the same scope. The warranties shall be provided by each sub-contractor in conjunction with the Project specifications for their related scope.
5. Contractor to submit detailed shop drawings as per the IFC drawings and ADM standards.
6. It is joint responsibility of Main contractor Arabian and M/S Champion Roof Insulation works to complete the scoped activities within the timeline of project baseline. This approval shall not relieve main contractor from contractual obligations towards project.
7. Project milestones shall be strictly followed.
8. Final approval subject to satisfactory performance at site.

| Subject | : Material submittal for Roof Waterproofing | Review Status | : B |

Manufacture: Champion Roof Insulation works LL.C

Engineer's Comments:

No objection subject to;

1. Subject to full compliance with contract specifications including section 07 52 16 and Contract drawings.
2. Strictly subject to follow the attached manufactures recommendation for product application including the rubberized bitumen U.V Protective coat and Cementitious acrylic top coating application, curing time etc.
3. The application shall be two coats (for both rubberized and Cementitious membrane) and each coat must be allowed to dry prior to applying the next coat.
4. The application of rubberized membrane is a Hold point and the water flood test shall be conducted along with RWO fittings (spout) prior to proceed with geotextile & protection screed application.
5. The Polyurethane foam average thickness (70-75mm) and minimum thickness 45mm shall be strictly subject to provide substantiation calculation confirming the compliance of Estidama requirement including U- value and copy of approved Estidama Consult M/s.Platinum's endorsement/approval shall be submitted.
6. The application of protective screed (Polypropylene Fiber Reinforced Protective Screed Concrete) shall be as per the manufacture's recommended method statement and proper slope shall be maintained.
7. Applicator shall be an approved/authorized specialist only (authorization from product manufacturer).
8. Strictly subject to comply with the requirement of warranty (special warranty) clause 2.8B of section 07 52 16 guaranteeing the materials, workmanship, installation and design for the complete waterproofing and roofing systems. This Insurance guarantee will have to be issued by one of the National Insurance Companies and copy of draft warranty shall be submitted for our review & approval.
9. Revsie & resubmit.

Important Notes:-

1. Contractor to conform that checked the design and the submitted material and equipment is complying with all the design parameters and rating, the sizes of the equipment are fitting the assigned spaces and confirming that they are sufficient for future maintenance without any modification on the architectural and structural drawings.
2. Corrections or comments made relative to submittals during this review do not relieve the contractor from compliance with requirements of the contract.
3. The client reserves his right for any cost saving resulting from any deviation or alteration from the contract specification and related contract documents until issuance of preliminary Handing over (PHO).
